DETAILED ACTION

Specification

1. The disclosure is objected to because of the following informalities: In the claims number 5 and 15, change the word "characterize" for "characterized".

In the specification, page 12, first line of the second paragraph, change numeral "20" for "210".

Appropriate correction is required.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by Solie (US 5831492).

Solie discloses a tapered SPUDT SAW device having:

SPUDT transducers (12, 14); such transducers being composed of groups of fingers (20); tapered in the direction of the fingers (Figure 1, 1A); wherein the fingers form a tapered structure.

Allowable Subject Matter

4. Claims 2-23 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Art Unit: 2834
